Mockup.pdf

The diagram illustrates the process of building a website from a template. It shows two versions of a "Freelancer" theme by Start Bootstrap:

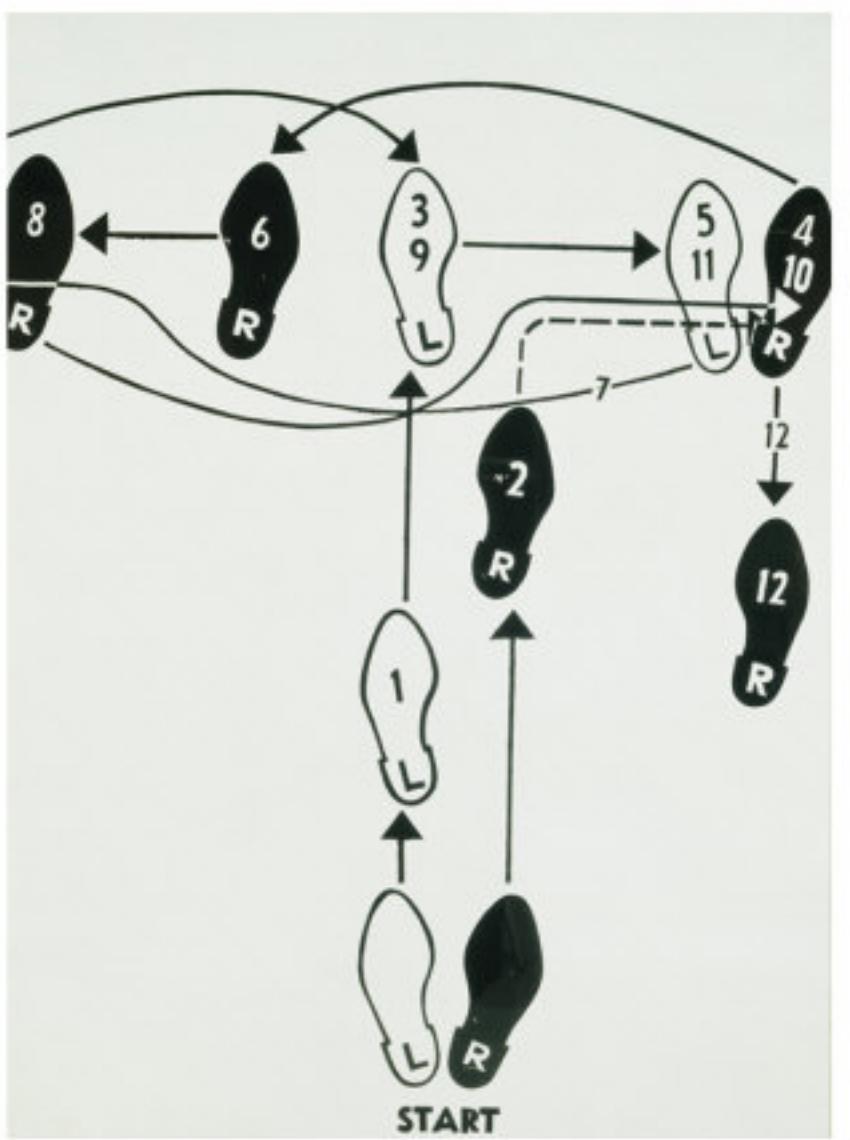

- Left Version:** A static screenshot of the theme. It features a teal header with a profile icon and the text "START BOOTSTRAP". Below the header is a "PORTFOLIO" section with six icons. To the right is an "ABOUT" section with a bio and a "Download Theme" button. At the bottom is a "CONTACT ME" form and a footer with location information.
- Right Version:** A screenshot of a browser developer tools' Elements tab. It shows the dynamic HTML structure of the same sections. The "Portfolio" section is highlighted, displaying the following code snippet:

```
<section id="portfolio">...</section>
```

The developer tools interface includes tabs for Sources, Elements, Console, Network, Performance, Memory, Application, and a sidebar with Compute, Event List, DOM Breakpoints, and Properties.
